TUFTS DIGITAL IMAGE LIBRARY IMPLEMENTATION

A collaboration of Tufts Department of Art and Art History, Educational and Scholarly Technology Services (ESTS), Digital Collections and Archives (DCA) and Tisch Library.

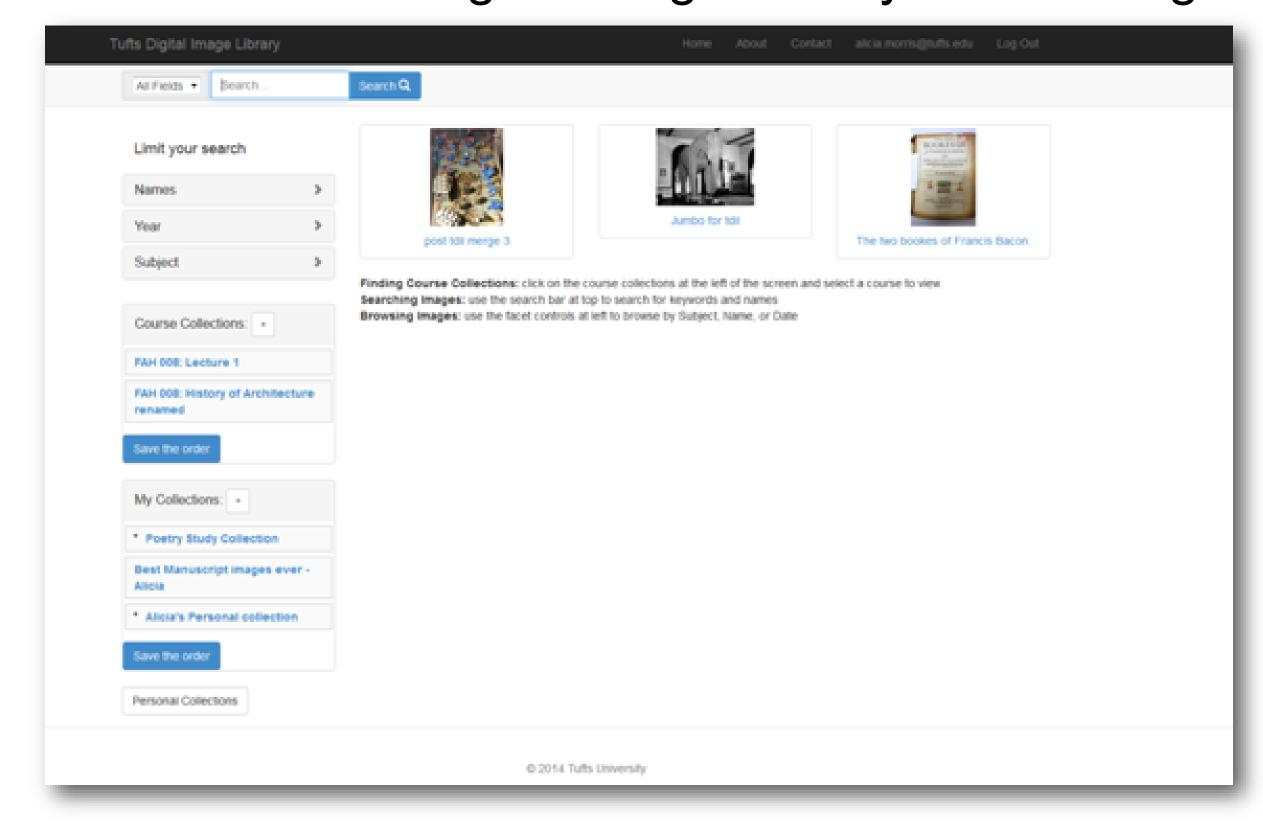

Funding secured in FY14 (contributions from all 4 campus units) and we partnered with Data Curation Experts (DCE) for software development

We modeled our concept on the functionality of Northwestern's Digital Image Library. Images added via our Administrative interface, MIRA.

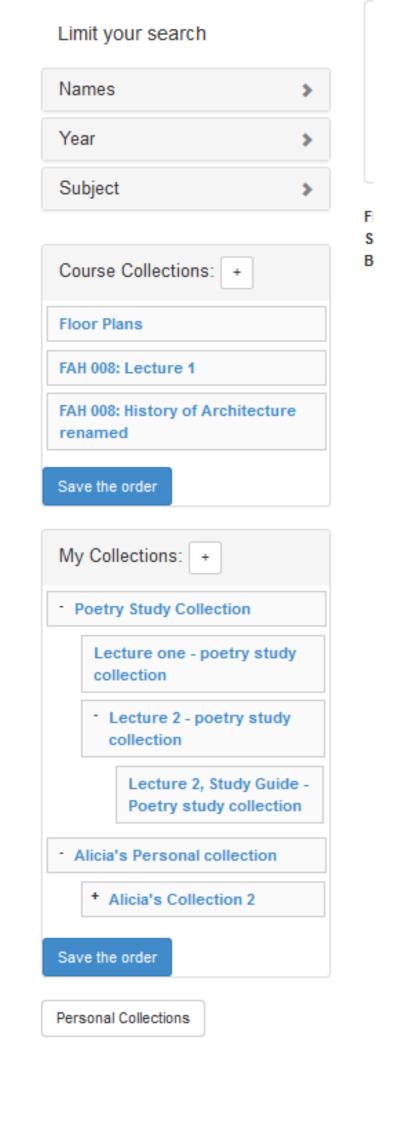

Tufts Digital Image Library Search Page

Functionality includes ability to:

- Create and edit curated and personal collections
- Nest collections

- Drag and drop images to collection folders
- Reorder images in a folder
- Sort by Relevance 10 per page III III Limit your search Description: General view of Italian loggia with three grand arches with Corinthian capitals and a sculpture garden from Antiquity and the Renaissance., Date Created: 1376-1382 CE., Historical Pieriod: Early Italian Course Collections: FAH 008: Lecture 1 Description: Central view of Renaissance reading room, depicting study desks, marble flooring, and framed walls., Date Created: began 1525 CE., Historical Period: Italian Renaissance., Medium: Architectur FAH 008: History of Architectus Description: Left view of Italian loggia with three grand arches with Corinthian capitals and a sculpture My Collections: from Antiquity and the Renaissance., Date Created: 1376-1382 CE., Historical Period: Early Italian Renaissance, Medium: Architecture, Accession Number: 14.8503-14 * Poetry Study Collection Best Manuscript images ever * Alicia's Personal collectio Description: Plan for the basilica placed amongst other buildings in the rest of the complex.
